

ESHA ARSHAD

PROFILE SUMMARY

Driven and ambitious Information Technology student with a strong academic record of 3.74/4.00 CGPA and hands-on experience in a professional software development environment. I enjoy turning ideas into practical software solutions using Python, Django, SQL, and web technologies. Motivated to continuously learn, take on new challenges, and contribute meaningful work to innovative technology projects.

WORK EXPERIENCE

Software Development Intern | Enigmatix Software House | 04 Sep 2025 – 04 Oct 2026

- Gained hands-on experience in full-cycle software development, working on assigned production tasks and web modules.
- Utilized modern development tools and version control systems (Git, GitHub) to manage codebases collaboratively.
- Improved technical, problem-solving, and teamwork skills while delivering features within structured deadlines in a professional environment.
- Engineered database operations and optimized dynamic web queries using Python, Django, and SQL.

ACCOMPLISHMENT

Honhaar Scholarship | Government of Punjab

- Recipient of the prestigious Honhaar Scholarship awarded by the Government of Punjab based on exceptional academic merit and CGPA performance.

EDUCATION DETAILS

Studying Information Technology with a comprehensive focus on programming, relational database systems, web development, software engineering, and core computer technologies. Developing practical skills through academic projects and hands-on application design.

SKILLS

- Python
- Django
- SQL
- Database Management
- HTML
- CSS
- Git
- GitHub
- CRUD Operations
- Web Development

EDUCATION

BS Information Technology

The Islamia University of Bahawalpur
23 Jan 2023 – Expected 30 Jan 2027

CGPA: 3.74 / 4.00

LANGUAGES

- English (Proficient)
- Urdu (Native)

INTERESTS

- Software Development
- Web Technologies
- Database Systems
- Programming
- Technology Innovation
- Continuous Learning

FEATURED PROJECTS

Content Management System

github.com/mesha5974-jpg/Content-Management-System

- Developed a Django-based content management platform designed for creating, updating, managing, and publishing digital content dynamically.
- Implemented dynamic views, database models, and structured user authentication workflows.

Ecommerce Database Management System

github.com/mesha5974-jpg/Ecommerce-Database-Management-System

- Designed and implemented a database-focused e-commerce system demonstrating structured data management and core online store operations.
- Wrote optimized SQL queries for managing products, user accounts, orders, and database transactions.

Blog Application

github.com/mesha5974-jpg/Blog-Application

- Engineered a dynamic web application for creating and managing blog content using Python, Django, and structured backend databases.
- Configured CRUD operations, relational mapping, and custom UI views for structured article browsing.

CORE COMPETENCIES & METHODOLOGY

- **Software Architecture:** Designing clean, scalable database models and Object-Relational Mapping (ORM) schemas.
- **Version Control & Collaboration:** Proficient in standard Git workflow, branching models, and GitHub repository maintenance.
- **Problem Solving:** Applying structured logic and debugging techniques to technical challenges in fast-paced software environments.
